site

teamtimber:

400.000 fm annual saw output
160 employees
30 ha industrial site

The Team-Timber Ltd. with its large-scale capabilities offers to you more than small sawmills or specialized large concerns.

As the associated companies have a large number of business fields, Team-Timber is a supplier for the complete product range of the sawing industry.

For every range - also in the area of product performances and consulting services - we can fulfill your requests individually and flexibly.
